STATE OF MONTANA

BIENNIAL REPORT OF
THE COMMISSIONER OF STATE LANDS
AND INVESTMENTS

Helena, Montana
November 2, 1944

His Excellency, Sam C. Ford,
Governor of the State of Montana.

Sir:

In accordance with Section 1805.10 of the Revised Codes of Montana, 1935, I herewith submit the Biennial Report of the Commissioner of State Lands and Investments for the two-year period beginning July 1, 1942, and ending June 30, 1944.

Respectfully submitted,

J. W. WALKER,
Commissioner.

OFFICERS OF STATE LAND DEPARTMENT FROM 1891 TO JULY 1, 1927

General Information

INCREASE IN GROSS INCOME

A steady increase in the income of the Department of State Lands and Investments for the past eight years is noted in the following tabulation:

Gross Income for Year

| Ending | Amount |
|--------------------|----------------|
| June 30, 1937..... | \$1,019,368.40 |
| June 30, 1938..... | 1,050,325.94 |
| June 30, 1939..... | 1,117,175.45 |
| June 30, 1940..... | 1,387,448.34 |
| June 30, 1941..... | 1,414,719.86 |
| June 30, 1942..... | 1,756,649.80 |
| June 30, 1943..... | 1,557,881.59 |
| June 30, 1944..... | 1,829,809.42 |

TOTAL ACREAGE UNDER LEASE

Ninety-nine and twenty-eight hundredths per cent of all unsold state-owned land, exclusive of forest land, was under lease for agricultural and grazing purposes on June 30, 1944. The total acreage under lease was 4,538,910.74, of which 4,052,079.21 were for grazing use and 486,831.53 acres were for farming purposes. This is the highest percentage of leased land in the history of the department, and the largest number of acres ever under lease at any one time in comparison with the total acreage owned.

CROP-SHARE RETURNS

Special attention is being given to the collection of crop-share rentals on state lands. Deputy field agents are assigned during harvest season to agricultural counties to facilitate the collection of the State's share of all crops.

SUBLEASING OF STATE LANDS

By legislative enactment, a sublease on state-owned land must be approved by the Department of State Lands, and a copy of the sublease placed on file in the Land Office, and no sublease on state lands may legally be made at a rental in advance of that paid by the original lessee to the state.

Carrying out the provisions of this statute has eliminated speculation in state land leases by absentee landlords and has been very encouraging to permanent residents of the state who are the actual users of state-owned lands.

COOPERATIVE STATE GRAZING DISTRICTS

On March 17, 1939, Chapter 208 of the 1939 Session Laws went into effect, creating the Montana Grass Conservation Commission, and provid-

ing for the organization of cooperative state grazing districts. Under this plan certain units of grazing lands in which state lands may be included are supervised by the districts thus created and are apportioned to members in such manner as to enforce the conservation of the State's pasture resources, not only by prevention of over-grazing but by developing stock water in dry areas. Grazing districts are required by law to lease all vacant state lands within their boundaries, and there are now 65 such grazing district leases, involving 425,703.69 acres, in effect.

The Department of State Lands is cooperating with the Grass Conservation Commission in the program of rehabilitating over-grazed areas, developing stock water in dry regions, and general conservation policies calculated to stabilize the stock industry and to preserve the State's grass resources.

ACREAGE APPRAISED BY FIELD DEPARTMENT

| Year Ending | Acres |
|--------------------|------------|
| June 30, 1937..... | 185,431.08 |
| June 30, 1938..... | 246,278.88 |
| June 30, 1939..... | 432,209.04 |
| June 30, 1940..... | 689,044.56 |
| June 30, 1941..... | 553,880.93 |
| June 30, 1942..... | 562,651.08 |
| June 30, 1943..... | 489,890.37 |
| June 30, 1944..... | 499,425.75 |

The field men make their appraisal reports to the Chief Field Agent semi-monthly, and in addition to this work they make inspections, land-use investigations, special collections, and in the Fall are assigned to the checking of crops in agricultural areas.

REMISSION OF PENALTY INTEREST

The enactment of the so-called moratorium law under Chapter 28, Session Laws of Montana, 1943, has proven a great benefit to holders of cancelled certificates. The greater percentage of cancellation of delinquent certificates took place during the years 1931 and 1933. The remission of penalty interest upon full payment of all delinquent installments, and also permitting reinstatement of certificates of purchase, cancelled not over twelve years prior to the date of the enactment of this law, has enabled a large number of purchasers of state land to reinstate their cancelled contracts, thereby salvaging their original investment. At the time the legislature was debating the advisability of enacting this law, it was presumed that only a limited number of certificate holders could or would be able to avail themselves of the benefit by the act.

The result has been very gratifying as indicated by the following statement which shows the number of certificates reinstated from the date the act was approved.

| Grant | No. Certificate Reinstated | Acreage |
|-----------------------------------|-------------------------------|-----------|
| Public School | 121 | 23,506.12 |
| University | 2 | 86.12 |
| Agricultural College-Morrill..... | 2 | 799.20 |
| Deaf and Dumb Asylum..... | 2 | 320.00 |
| Farm Loan Contracts..... | 75 | 22,922.07 |
| Totals | 202 | 47,633.51 |

In addition to the number shown above, many more certificates will be reinstated before December 31, 1944, which is the date the special law expires.

INVESTMENT OF PERMANENT FUNDS

Under the statutes, permanent funds of the schools and other institutions can only be invested in government bonds, bonds of the State of Montana, general obligation bonds of the political subdivisions of the State, and interest-bearing warrants of the general fund of the State and of the counties. The legality of the proceedings for the issuance of all school district, city and county bonds must be approved by the Attorney General before the State Board of Land Commissioners makes the final purchase.

Permanent funds are invested in authorized bond issues as early as possible following receipt, with only enough reserve kept on hand to give the taxpayers the protection which is afforded by the State being in a position to bid on their bond issues.

MONTANA TRUST AND LEGACY FUND

In the preceding biennial report, attention was called to the creation of this consolidated fund by an amendment to Article XXI of the State Constitution which went into effect on January 31, 1941. At this time the State Treasurer transferred all cash balances remaining in the following permanent funds to the cash account of the Montana Trust and Legacy Permanent Fund: Common School, University, Agricultural College Morrill Grant, Agricultural College Second Grant, School of Mines, State Normal Schools, Deaf and Dumb Asylum, State Reform School, Ryman Library, Ryman Fellowship, and W. W. Dixon Endowment Funds.

Under this unified investment plan, all receipts for the permanent funds of the various institutions are transferred to the common fund at the end of each month. Eventually, as investments now held by the separate funds are redeemed, the entire amount of each fund will be part of the Montana Trust and Legacy Fund. In the meantime, the income from the outstanding investments not part of the common fund goes direct to the institution concerned. The income from the pooled investments in the common fund goes into the Montana Trust and Legacy Interest and Income Fund, from which it is distributed quarterly to the various funds

on the basis of the average balance each fund had in the common fund for the past ninety days.

From the total of \$1,341,752.69 on January 31, 1941, the Montana Trust and Legacy Fund has grown to \$17,202,548.24 as of June 30, 1944. Interest distributions during this period have amounted to \$499,989.74.

U. S. PATENTS TO SECTIONS 16 AND 36

The work of securing United States patents, as evidence of title, to numbered school sections in place has gone on slowly during the past biennium with the limited funds available. On June 30, 1942, patents had been secured for 1,744,468.30 acres. During the period from June 30, 1942, to June 30, 1944, patents were received for an additional 570,996.92 acres, making a total acreage to which the State has received patents of 2,315,465.22 acres. Prior to the passage of the Act of Congress of June 21, 1934, authorizing the issuance of such patents, the State's title to Sections 16 and 36 rested merely upon the general grant made by Congress on the admission of Montana to the Union, and in many instances titles were doubtful because of mining, forest or homestead withdrawals made before the time of survey. The application for patents has brought all such cases to light and definitely settled the question of title one way or the other. In 1943 Indemnity School Land Selections were completed for 1,556.69 acres, and there is a lieu land selection now pending for 200 acres.

*Due to wartime restrictions and the necessary curtailment of highway construction, and the inability to obtain materials for the erection of additional buildings at the Montana State Hospital, these funds were turned over to this department and placed in the Montana Trust and Legacy Fund for investment. This action was taken so that the funds could be invested and draw the pro-rated rate of interest paid by this fund instead of being idle.

* Soldiers' Home Grant.

§ Orphans Home and T. B. Society.

This summary shows only the results of the sales as they are made, and does not take into account subsequent cancellations of certificates of purchase. It will be noted that since 1933, the average sales price has in some years dropped below \$10.00 per acre, which was the minimum originally fixed by the Enabling Act. By Act of Congress amending the Enabling Act and accepted by the State in the 1933 Legislative Session, grazing land may now be sold for \$5.00 per acre.

TABLE NO. XIX
LANDS UNSOLD IN EACH GRANT BY COUNTIES—JUNE 30, 1944

When lands are sold, and when sales contracts are cancelled, the figures of "lands unsold" are changed accordingly. When losses have been sustained in Section 16 or Section 36 and "lien lands" are selected in another county, the lands are shifted and the figures altered. On account of these constant changes the table of unsold lands does not long remain entirely accurate; but all the same it gives a good idea of the quantity and distribution of the lands.

TABLE NO. XX

OPERATION OF UNSOLD LAND ACCOUNT JULY 1, 1942 TO JUNE 30, 1944

FROM JULY 1, 1942 TO JUNE 30, 1944

| Minimum Share Rental—One-fifth of all Crops Raised, Delivered to Elevator..... | | | | | |
| Average Grazing Rental Per Acre..... | | | | | \$0.050009 |
| Average Cash Rental Per Acre for Agricultural Land..... | | | | | 0.620376 |
| Total Number of Leases in Effect, Including 1,318 Crop-Share Leases..... | | | | | 7402 |

This includes 425,703.09 acres at a total annual rental of \$10,845.08 which is under lease to Cooperative State Grazing Districts. As grazing districts are required to lease all the state-owned land within their own boundaries, regardless of its value, the policy has been adopted of leasing the lands in a district at a flat rate, which may be somewhat below the average grazing rate on state lands leased to private individuals. This has resulted in cutting the average rental received on grazing lands but has placed many acres, which have previously lain idle to supervised grazing use.

| Total Producing Leases, 79; Total Producing Acreage, 37,207.49. | | | | | | | |

The leasing of state lands for oil and gas exploration and development is governed by Sections 1882.1 to 1882.24, Revised Codes of Montana, 1935, and Chapter 109 of the 1941 Session Laws.

Under this legislation, oil and gas leases on state lands are granted for a period not exceeding ten years and as long thereafter, during the term of twenty years commencing with the date of the lease, as oil or gas in commercial quantities is produced from the land. The minimum annual rental is fixed at the flat rate of 75 cents per acre, but with a minimum total rental under each lease of \$50.00 per annum. No oil and gas lease shall include more than one section of land, but there is no limitation as to the number of leases that may be issued to a lessee.

The statutes require that at least one well shall be drilled under each lease within two years after the date of its issue, but power and authority is given to the State Board of Land Commissioners to extend the time for commencement or completion of such drilling from year to year not exceeding ten years from date of the lease, upon such terms and conditions as the board may determine. It has been the general practice of the board to grant such extension of time upon payment of a penalty of \$1.00 per acre per annum. Such extension of time for drilling does not release the lessee from the obligation of drilling offset wells.

During the biennium, the penalties for failure to drill and for extension of time amounted to \$27,113.24.

In addition to these rentals and penalties for delay in drilling, there is reserved to the State a royalty on oil and gas produced and saved of twelve and one-half per centum of the production. In case of heavy pro-

duction a graduated scale of higher royalties becomes effective. The royalty on gas is fixed at the flat rate of twelve and one-half per centum, to be sold at a minimum price of 5 cents per 1,000 cubic feet.

Oil and gas royalties collected for the last two fiscal years amount to \$205,262.17.

On January 22, 1934, the State Board of Land Commissioners ruled that all lands for which applications for oil and gas leases have been made shall be advertised for leasing through oral competitive bidding in the Montana Oil and Mining Journal for two weeks. No preference is given at such bidding except in the case of a renewal lease.

The lessee is required to furnish a surety company bond in the amount of \$1,000.00 for faithful performance of his obligations under the lease, and the State Board of Land Commissioners reserves the right to increase this bond if found necessary.

All rentals on oil and gas mining leases are credited to the income fund of the school or institution to which the lands belong; all royalties are added to the permanent funds.

COAL LEASES

| Grant | Number | Acreage | Advance Royalty Deposit Required |
|---------------------|--------|---------|-------------------------------------|
| Public School Lands | 13 | 2,433 | \$900.00 |

The leasing of state lands for coal mining is governed by Sections 1805.38 to 1805.47, Revised Codes of Montana, 1935. Such leases are usually granted for a period of five years. The minimum annual royalty deposit is \$50.00. Such deposit or rental is regarded as payment of royalties for coal taken and, therefore, is added to the permanent fund. The minimum royalty is 12½ cents per ton. The lessee is required to furnish a surety company bond in the amount of \$1,000.00 for faithful performance of his obligations under the lease.

MINERAL LEASES

| Grant | Number | Acreage | Annual Rental |
|--------------------------|--------|----------|------------------|
| Public School Lands..... | 4 | 3,776.42 | \$285.50 |
| Farm Loan Lands..... | 1 | 40 | 25.00 |
| Totals | 5 | 3,816.42 | \$310.50 |

Leasing of state lands for metalliferous minerals or gems is governed by Chapter 148 of the 1937 Session Laws. Such mineral leases are granted for a period of from one to three years and as long thereafter, during the term of fifteen years commencing with date of lease, as metalliferous minerals in commercial quantities are produced from the land. The minimum annual rental is \$25.00 per lease and the minimum royalty is five per centum of gross values. The lessee is required to furnish a surety company bond

in the amount of \$1,000.00 for the faithful performance of his obligations under the lease, and the State Board of Land Commissioners reserves the right to increase this bond if found necessary. Rentals on metalliferous mining leases are credited to the income fund of the school or institution to which the lands belong and the royalties are added to the permanent fund.

TABLE NO. XXIV

PERMITS IN EFFECT JUNE 30, 1944 MINERAL PROSPECTING

| Grant | Number | Acres |
|---------------|--------|-----------|
| Public School | 39 | 10,342.02 |

Metalliferous mineral prospecting permits are issued for a term of one year with the privilege of renewal for two additional years. The annual fee for such permit is \$1.00 and it entitles the permittee to prospect and explore land but not to remove any minerals except for testing and assay purposes. Such a permit gives the permittee the preference right in securing a mining lease.

MISCELLANEOUS

| Grant | Coal | Gravel | Sand and Gravel | Total |
|--------------------------|------|----------|-----------------|----------|
| Public School | 680 | 2,175.00 | 559.72 | 3,414.72 |
| State Normal School..... | | 120.00 | | 120.00 |
| State Reform School..... | | 160.00 | | 160.00 |
| Total Acreage | 680 | 2,455.00 | 559.72 | 3,694.72 |
| Number of Permits..... | 2 | 18 | 2 | 22 |

Coal mining permits are issued for a term of one year and entitle the permittee to remove not more than 30 tons of coal for the use of himself and family at a charge of \$5.00 and a fee of \$1.00. Gravel permits are issued at a minimum charge of 3 cents per cubic yard for gravel for road purposes. Sand and gravel permits are issued at a minimum charge of 15 cents per cubic yard for building sand and stone.

NOTES ON CONDITION OF STATE FARM LOANS

The last biennial report showed 55 farm loans still outstanding. Due principally to good crops during the last two years, 25 of these loans have been paid in full, leaving 30 still in force. Of this number 24 are in good standing. As to the other 6 the mortgagors have died in the meantime and their estates are in course of probate. However, now it is apparent that several of the delinquent loans will have to be foreclosed and title to the land taken by the State.

During the past biennium 15,752.49 acres of farm loan land has been sold at a purchase price of \$145,570.10.

There are 457 Certificates of Purchase of farm loan land in effect as of June 30, 1944. With the exception of 37 contracts in arrears, some of which may have to be cancelled, the remainder of the certificates are in excellent condition, and on a number of them installments of principal have been paid in advance.

There are 404,003.27 acres under grazing or agricultural leases as will be noted by the following table, and as the total farm loan acreage to which the state has title is 410,905.88, leaving only 4,902.61 acres of farm loan land not under lease or certificate of sale, which is a very small acreage of unused land compared with conditions existing in past years.

All receipts from mortgage lands go into the State Farm Loan Sinking Fund. After paying any costs that might arise in connection with farm loans, the fund is distributed quarterly, on the basis of 2% interest on the farm loan investment and paid to the Public School Interest and Income Fund and the remainder is transferred as repayment of the investment to the Public School Permanent Fund. The total net receipts for the last two fiscal years have been \$953,411.10 of which \$124,335.77 went to the Income Fund and \$829,075.33 into the Public School Permanent Fund as repayment on the original investment.

On January 1, 1935 the records of this department show that \$4,250,625.95 had been invested in farm loans. From January 1, 1935 to June 30, 1942, over a period of eight years, the original investment had been reduced to \$3,458,063.14 by repayments received from sale of land, interest on certificates, grazing and agricultural leases, oil royalties and oil leases amounting to \$792,562.81. From July 1, 1942 to June 30, 1944, over a period of two years, due to good crops and similar revenues a further surprising reduction of \$829,075.33 was effected so that the balance of the original investment now stands at \$2,628,987.81 as of June 30, 1944.

TABLE NO. XXVII
FARM LOAN LAND AGRICULTURAL AND GRAZING LEASES
IN EFFECT JUNE 30, 1944

| Name of Grant | Grazing Acreage | Annual Grazing Rental | Agri- cultural Acreage | Annual Agri- cultural Rental | Acres Under Crop-Share Lease |
|--|--------------------|-----------------------------|------------------------------|---------------------------------------|---------------------------------------|
| Public School | 243,302.94 | \$16,956.30 | 7,994.93 | \$4,006.75 | 161,707.40 |
| Acres Under Gazing Lease..... | | | 234,302.94 | | |
| Annual Grazing Rental..... | | | | | \$16,956.30 |
| Acres Under Agricultural Lease..... | | | 7,994.93 | | |
| Annual Agricultural Rental..... | | | | | 4,006.75 |
| Acres Under Crop-Share Lease..... | | | 161,707.40 | | |
| TOTALS..... | | | 404,003.27 | | \$20,963.05 |
| Minimum Crop Share Rental—One-fifth of all crops, delivered in elevator: | | | | | |
| Average Grazing Rental per Acre..... | | | | | \$0.072369 |
| Average Agricultural Cash Rental per Acre..... | | | | | 0.501161 |
| Crop Returns from Crop-Share Leases for the past year ending | | | | | |
| June 30, 1944 were..... | | | | | \$110,146.06 |

This includes 19,491.02 acres grazing land at an annual rental of \$711.70, which is leased to Cooperative State Grazing Districts. (See note on Table No. XXII.)

TABLE NO. XXVIII
ANNUAL APPORTIONMENT OF THE INCOME FROM THE PUBLIC
SCHOOL PERMANENT FUNDS AND OTHER SOURCES TO
THE SCHOOL DISTRICTS OF THE STATE
